

Parker Directional Control Valves Open

Parker's K220LS mobile valve is characterized by industry leading properties regarding robustness, control precision and energy efficiency. Parker K220LS is a sectional-built, load sensing, directional control valve for mobile machinery.

Directional Control Valves | United Kingdom - ph.parker.com

Parker F130CF, F130CP is a robust mobile valve with excellent controllability for mobile machinery. Parker F130CF, F130CP is a sectional-built, directional control valve for mobile machinery used in open center systems and closed center systems.

Parker - Directional Control Valves, Open Center, Models ...

Parker offers a comprehensive range of hydraulic directional control valves. We provide seat and spool valves, hydraulically, electrically, pneumatically or mechanically operated, in standard, regenerative and hybrid design.

Directional Control Valves | Parker NA

Parker's direct operated directional control valves series D1MW (NG06 / CETOP 03 / NFPA D03) and D3MW (NG10 / CETOP 05 / NFPA D05) feature an excellent corrosion protection of the valve body, the solenoid coil and the anchor tube which predestines these on/off valves for mobile applications.

Directional Control Valves - Parker Hannifin

Parker's family of 3-position, 4-way proportional directional control valves come standard with closed or float center spools and are capable of flows up to 32 lpm (8.5 gpm) and pressures as high as 350 bar (5000 psi).

Directional Control Cartridge Valves | Parker NA

Maximizing productivity by minimizing downtime. Parker is fully committed to complying with international standards. Our hydraulic valves comply with ISO, CSA, and CE standards, and we offer

directional control and servo valves that are ATEX rated.
