182 PEARSON science. Energy efficiency Any device that converts energy, such as a car or a computer, requires some form of energy to make it run. This is its input. Useful energy is its output. As we have seen, unwanted forms of energy are released too, usually as heat. Energy efficiency is a measure of how much input energy is converted into useful output energy. The greater proportion of ...

6.8 234 PEARSON science. Rust prevention The impact of rusting on the world's iron structures is so extensive and costly that scientists have put a lot of effort into understanding how rusting occurs and how it can be prevented. The rusting of iron is usually minimised in three ways: • coating • galvanising • alloying. Chemistry in context: corrosion Corrosion is a chemical reaction ...
